

# **SOUTH CAROLINA DEPARTMENT OF REVENUE**

## **Motor Fuel EDI Implementation Guide**

---

**Motor Fuel on-line Filing System**

**Revised**

**6/1/2012**

**ANSI ASC X12 V .4030**

**(Adapted from the FTA Electronic Combined Reporting Methods  
Implementation Guide)**

## **SPECIAL NOTE**

**Due to a legislative change to Title 12, Chapter 28 that was signed by the Governor on June 18<sup>th</sup>, 2003, the word “user Fee” has, in all instances replaced the term “tax ” or a variation thereof.**

*It is recommended that you refer to the FTA Uniformity Guide to implement the Motor Fuels Uniformity methods.*

# Chapter 1 – Introduction

The South Carolina Department of Revenue (SCDOR) has upgraded the current EDI system for Motor Fuel User Fee returns. EDI files will now be required to be uploaded via the web using the following web address: [www.sctax.org](http://www.sctax.org). Filers will also have the no-cost filing option of entering return data directly onto the SCDOR website. Effective July 1, 2012, specific product codes for gasohol and biodiesel will be required. They are as follows:

*Gasohol- E01-E99 replaces “roll-up” product code 124 to reflect the percentage of fuel grade ethanol blended with gasoline. Pure, unblended fuel grade ethanol should be reported as E00, replacing product code 123.*

*Biodiesel- B01-B99 replaces “roll-up” product codes 284 and 170 to reflect the percentage of biodiesel blended with undyed diesel fuel. Pure, unblended biodiesel should be reported as B00.*

*Biodiesel- D01-D99 replaces “roll-up” product codes 284 and 171 to reflect the percentage of biodiesel blended with dyed diesel fuel. Pure unblended, dyed biodiesel should be reported as D00.*

Per SC Code Section 12-28-1400(A), all Suppliers, Terminal Operators and Transporters are mandated to file their motor fuel returns “in the manner provided by the Department.” A Registration Application for Motor Fuel EDI, Form D-155, must be completed prior to participation in the program.

All Supplier reporting payments accompanying Motor Fuel transactions, **via web or EDI**, must be submitted through the Electronic Funds Transfer (EFT) Program. The EFT Program for Motor Fuel is a separate program from the EDI Program. For all Suppliers that are currently paying through EFT, we encourage you to continue to pay using this method. For further information regarding the EFT program, please see the EFT Program guide located on our website under Motor Fuel/E-Services.

## ***The Software Developer***

Your place in the process is one of the most crucial. We at the Department depend on you to develop software that will meet our needs in terms of edits and proper layout. The users of the software count on you to develop a user-friendly package that will fit their business needs and ensure accurate translation of their data.

To help you in every way possible, this handbook gives you contacts if you have questions or need additional information, the current map, testing procedures that we require you to use, record layouts/edits to define the framework of the software, and a sample mapping of a supplier and terminal operators motor fuel user fee return.

## ***General Information***

Electronic Data Interchange (EDI) is the electronic exchange of business documents from one company's computer to another company's computer in machine-processable formats. The direct, computer-to-computer exchange of business information reduces the expense associated with processing paper (opening envelopes, logging in of documents, etc.) as well as the costs, errors and time delays associated with data entry. Companies in industries of all kinds have found that EDI makes tremendous economic sense. Government agencies such as the South Carolina Department of Revenue naturally see the value in reducing the paper-intensive component of motor fuels taxation by implementing EDI.

## ***Advantages***

**Advantages of participating in Motor Fuel EDI include:**

- **Eliminates paperwork, no more paper returns**
- **EDI eliminates postal delays**
- **EDI files imported to the SC system will process from import to filing without requiring any user input**
- **Filer will now have the ability to modify any tax returns that have errors from the imported EDI file or reload a corrected EDI file**
- **In the event the file fails for any reason, an email notification will be sent to the filer**
- **Email notification will be sent to filers when the tax return is filed**
- **Computerized filing provides an avenue for the SCDOR to more accurately track fraud**
- **Comprehensive audit trail for the return**

This EDI Implementation guide follows version 4030 of the EDI ANSI ASC X12 standards. This guide's purpose is to assist you in implementing and filing EDI for motor fuel returns and reports.

# Introduction

---

## ***Understanding EDI***

EDI is used extensively in industry. For example, the retail and manufacturing industries cut purchase orders, send invoices, process shipping notifications, and make payments; all electronically. The time saved and accuracy gained using EDI gives businesses a competitive advantage, reducing lead-time, and vastly reducing data entry errors. It also reduces the need to store reams of paper documents for future reference.

EDI may seem complex, but once the basics are understood, the concept is really quite simple. As stated earlier, EDI is a method to electronically exchange business documents using a standard format. To facilitate this exchange of documents, two things are needed. First, the user (or trading partner) needs a method to send and receive electronic documents. Second, the user needs software to translate schedules and user fee returns into the standard EDI format.

## ***EDI 813 Version***

South Carolina is using the ANSI ASC X12 Version Release 004030 EDI standards for the EDI 813 (Electronic Filing of User Fee Return Data) transaction set. Many states have implemented, or are planning on implementing, the EDI 813 for motor fuel user fee filing. Previous releases of the EDI 813 transaction set allowed for individual state variations in EDI filing. Version 4030 promotes uniformity in motor fuel user fee filing. As states migrate to the 4030 version, filers will be able to create a more generic EDI map, reducing the effort needed to track individual state variations.

## ***EDI Filing Method***

The South Carolina Department of Revenue will accept EDI files through the Internet. For more information about this method, see the section on Internet Filing Procedures (Appendix A).

## ***EDI File Naming Convention***

The EDI file should be named using the following conventions:

EDI File Naming will follow the format of SCccyyymmAAAAxnn.test

- “SC” is the state abbreviation
- “ccyyymm” is reporting year and month
- “AAAAA” is a state assigned company name abbreviation
- “X” denotes “O” original or “A” amended
- “nn” denotes sequence number (“03” is the third amended filing)
- “test” or “prod” to indicate user filing status (“dev” to be used by software developers)

Examples:

SC200303PETRCO01.test

- “SC” for South Carolina
- “2003” for the year the return is being filed
- “03” for the month the return is being filed
- “PETRC” represents Petroleum Company and was assigned by the Department
- “O” for Original filing
- “01” for first transmission of the original filing
- “test” indicates the user is sending a test EDI file.

SC200303PETRCA02.prod

- “SC” for South Carolina
- “2003” for the year the return is being filed
- “03” for the month the return is being filed
- “PETRC” represents Petroleum Company and was assigned by the DOR
- “A” for Amended filing
- “02” for the second amended filing
- “prod” indicates the user fee is sending a production EDI file

SC200303PETRCA01.dev

- “SC” for South Carolina
- “2003” for the year the return is being filed
- “03” for the month the return is being filed
- “PETRC” represents Petroleum Company and was assigned by the DOR
- “A” for Amended filing
- “01” for first transmission of the original filing
- “dev” indicates the software developer is sending a developer created EDI file

South Carolina Department of Revenue prefers to receive all returns (the Supplier Return, Terminal Operator Reports, and Transporter Report) in a single file (using separate 813 Transaction Sets). However, the filer can choose to send the Supplier Return, Terminal Operator Reports, and Transporter Report in separate files. If the filer sends the Supplier Return and Terminal Operator Report and Transporter Report in separate files, the first original file transmitted will be sequenced 01, the second original file will be sequenced 02. For example, using separate files, the original Supplier Return if sent first, would be named using sequence “01”, (i.e. “SC200303PETRCO01.test”), the Terminal Operator Returns would be named using sequence “02”, (i.e., “SC200303PETRCO02.test”), and the Transporter Report would be named using sequence “03”, (i.e., “SC200303PETRCO03.test”).

Original returns rejected for EDI syntax errors are NOT to be resubmitted as Amended returns. They should carry the “O” for original filing and the next sequence filing number.

Example: Original file rejected -- SC200303NAMESO01.test  
Resubmit named -- SC200303NAMESO02.test

# Introduction

---

## ***EDI File Structure***

Each 813 (return) must be submitted with its own ST loop (ST segment through SE segment). Multiple ST-SE loops can be submitted under one ISA envelope or each can be sent under a separate ISA envelope. Please remember, the ISA15 controls the test/production indicator; test and production returns cannot be combined under the same ISA envelope.

## ***Available EDI Filing***

Initially, the following returns may be filed via EDI:

- Form L-2098 - Motor Fuel Terminal Operator Monthly Report
- Supporting Schedules for L-2098
  - L-2099 – Terminal Operator Schedule of Receipts
  - L-2100 – Terminal Operator Schedule of Disbursements
- Form L-2119 - Motor Fuel Suppliers Monthly User Fee and Calculation
- Supporting Schedules for L-2119
  - L-2102 – Supplier Schedule of State Diversion Corrections
  - L-2103 – Supplier Schedule of Terminal Rack Removals
  - L-2122 – Supplier Schedule of User Fee Paid Receipts

By the fall of 2006, the following return may also be filed via EDI:

- Form L-2176 - Motor Fuel Transporter Monthly Report
- Supporting Schedule for L-2176
  - L-2185 – Motor Fuel Transporter Schedule

Note: For those filers already filing the Terminal Operator Report or Terminal Supplier Return as production returns, the Transporter report must be filed separately as a test file until notified by the State that you've been approved to move to a production status.

## ***EDI Timely Filing***

The due date for filing your Motor Fuel User Fee Return and Schedules via EDI is on or before the 22nd day of the month following the month of activity. This means the EDI filing must be both transmitted and received by the South Carolina Department of Revenue on or before the 22nd day of the month.

If a return due date falls on a holiday or weekend, the user fee return is due no later than the first business day after the holiday or weekend. Timely returns are based on the date of receipt of the electronic return by the South Carolina Department of Revenue.

### **HOLIDAY SCHEDULE**

New Year's Day	January 1
Martin L. King Day	Third Monday in January
George Washington's Birthday (President's Day)	Third Monday in February
Confederate Memorial Day	May 10
Memorial Day	Last Monday in May
Independence Day	July 4
Labor Day	First Monday in September
Veteran's Day	November 11
Thanksgiving Day	Fourth Thursday in November
Day After Thanksgiving	Friday following Thanksgiving Day
Christmas Eve	December 24, when declared a State holiday by the Governor
Christmas Day	December 25
Day After Christmas	December 26

NOTE: Department of Revenue Holiday - When a legal holiday falls on a Sunday, it will be observed on the following Monday. When a legal holiday falls on a Saturday, it will be observed on the preceding Friday.

## ***EDI Testing Procedures for Commercial Software Developers***

**All developers must register, test, and complete the certification process with the Department prior to the use of their software for live transmissions by any South Carolina users.**

- 1.** Complete the Registration Application (Form D-154) in this guide prior to setting up your communication link. Mail or fax your application to the Department.
- 2.** Upon receiving your application, you will be contacted by the Department via email and given a userid and temporary password to log into the Motor Fuel website. At this time, you will log in to the system and create your password for the testing phase. You will also receive a software provider code, which will be used to populate the BTI12 field.
- 3.** Contact us when you are ready to test with the Department. A test package containing several test scenarios will be provided to you. If your software will not offer both the Supplier and Terminal Operator user fee filings, then you will only need to test the filing type you offer.

NOTE: Due to the fluctuation in federal interest rates, calculation of Penalty (TIA 5009) and Interest (TIA 5008) are NOT part of the certification process in SC and you are not required to maintain the penalty and interest rates, although your company may choose to have penalty and interest calculations as part of its package. If so, please be sure to keep rate tables up-to-date. The federal interest rate tables may be found at the South Carolina Department of Revenue Web-site at [www.sctax.org](http://www.sctax.org)>Tax Policy>Index>Administrative>Interest Rate for Under/Overpayments-Periods 1985 – present.

**The summary fields for Penalty and Interest are required in the EDI map. If not calculated, create the TIAs with zero amounts.**

- 4.** Whenever you send a file to the South Carolina Department of Revenue, the SC Motor Fuel eFiling system will automatically notify the filer via email once the file processes and/or if errors occur. The user needs to make sure that all contact information is up to date so the notification will be received. If you have a problem with any aspect of your transmission, call the Electronic Services Help Desk @ 1-800-896-0311.
- 5.** After receiving your initial test, we will notify you of the results, continued testing may be required. Please note: It is not uncommon to repeat this phase several times.
- 6.** After successfully passing the testing phase, the beta testing phase must be completed. During this phase, the Department will require two companies using your software to register and submit returns. The first return will be a test of the user's prior months paper production filing, which will be compared to the 813 submitted. Once it has been successfully received, they will then be required to file an actual production return in the production environment.
- 8.** After you have successfully completed all phases you will be notified by letter that you can make your software available to users.

Whenever you make a significant change to your software package, you should run another test with us to ensure accuracy and reliability for your users.

# Introduction

---

## ***EDI Testing Procedures for Motor Fuel Companies Developing their own Software In-House***

1. Complete the Registration Application (Form D-155) in the User's Program Guide prior to setting up your communication link. Mail or fax your application to the Department.
2. In the Tax Software Vendor field of the D-155, please write your Federal Identification Number.
3. Paper returns will need to be filed until you have successfully completed the testing phase.
4. Upon receiving your application, you will be given a username and a temporary password to log into the Motor Fuel website. At that time, you will login to the system and create your password. You will use these to access our website during the testing phase.

Special Notes:

- a. Populate your BTI12 with "SCTRUEX12".
  - b. Due to the fluctuation in federal interest rates, calculation of Penalty (TIA 5009) and Interest (TIA 5008) are NOT part of the certification process in SC and you are not required to maintain the penalty and interest rates. Your company may choose to have penalty and interest calculations included. If so, please be sure to keep rate tables up-to-date. The federal interest rate tables may be found at the South Carolina Department of Revenue Web-site at [www.sctax.org](http://www.sctax.org)>Tax Policy>Index>Administrative>Interest Rate for Under/Overpayments-Periods 1985-present.
5. Please submit your last month's return as your test return. If your company files both the supplier and terminal operator returns, you are required to submit both in the testing phase.
  6. Whenever you send a file to the SCDOR, the SC Motor Fuel eFiling system will automatically notify the filer via email once the file processes and/or if errors occur. The user needs to make sure that all contact information is up to date so the notification will be received. If you have a problem with any aspect of your transmission, call the Electronic Services Help Desk at 1-800-476-0311.
  8. After receiving your initial test, we will notify you of the results; continued testing may be required. Please note: It is not uncommon to repeat this phase several times.
  9. After successfully completing all phases, you will be notified by letter that you may begin filing in production.

Whenever you make a significant change to your program, you should run another test with us to ensure accuracy and reliability.

## ***EDI Production Filing Procedures***

### **INSTRUCTIONS FOR FILING A PRODUCTION RETURN**

**NOTE:** If the ISA15 flag in the 813 transaction differs from the file-naming extension, it will be considered a test filing, regardless of the file-name.

#### **Software Developers**

**Do NOT use these instructions during the software certification process.** These instructions are to be used by your clients when they begin submitting their production returns to the South Carolina Department of Revenue. **These are provided here for informational purposes only.**

**Following are the steps that will need to be followed when filing a production return:**

1. Before filing a production return, your company must have completed two successful test returns. See EDI Testing Procedures for further instruction on test filings.
2. After completing the testing phase, you will be notified in writing when you are to begin production filing for Motor Fuel EDI.
3. Paper returns must not be sent to the SCDOR after you begin your production EDI filings.
4. Once you begin the EDI production process, your company must file all production returns by EDI. If you have problems that will prevent you from filing by EDI, call the HelpDesk @ 1-800-476-0311 immediately. Do NOT send paper without contacting the SCDOR.
5. To file a production return, you must change your filing status from “Test” to “Production”.
6. Follow the steps listed in Appendix A (Internet Filing Procedures) to load your file onto our website.
7. The SC Motor Fuel eFiling system will automatically notify the filer via email once the file processes and/or if errors occur. The user needs to make sure that all contact information is up to date so the notification will be received.
8. If your company changes its filing sources (i.e. changes software vendor or moves to in-house software), your company must continue to file through the old source while testing through the new source. Your company can NOT discontinue EDI while changing filing sources.

# Introduction

---

## ***EDI Acknowledgments***

In the past, normally users would be able to retrieve an EDI 997 (Functional Acknowledgment) within two business days of transmission of the EDI user filing. Effective July, 2012, the upgrade to the SC Motor Fuel eFiling System will automatically notify the filer via email once the file processes and/or if errors occur. **The user needs to make sure that all contact information is up to date so the notification will be received.**

## ***FTA Review***

This guide which included Terminal Operator and Terminal Supplier mapping was presented to the FTA Uniformity Committee for review in July 2003 and approved in September 2003.

In February 2006, Transporter (Common Carrier) mapping was made available under 2003 guideline standards, keeping the Transporter mapping consistent with existing Terminal Operator and Terminal Supplier mapping. Revisions to the guide to include Transporter mapping were presented to FTA Uniformity Committee for review in February 2006.

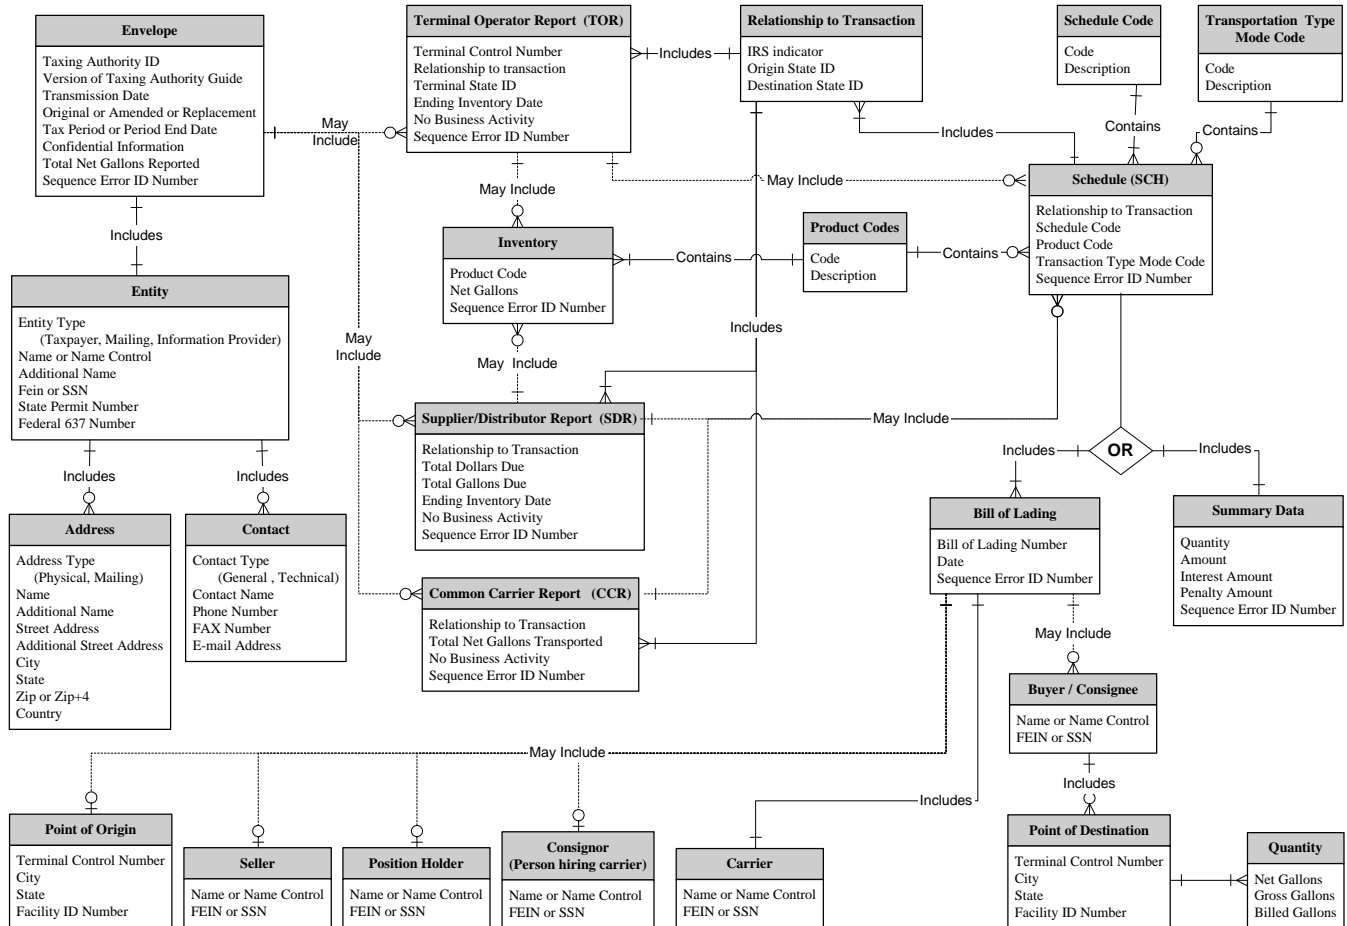

**NOTE:**

**To stay consistent with the Uniformity Committee and as not to alter any of the uniformity language, the references to “tax” and “taxpayer” vs. “user fee” and “user” have not been changed on pages 1-12 through 6-56 and E-71 through G-75.**

## Introduction

# Chapter 2 – Motor Fuels X12 Data Model

# Chapter 3 – X12 Attribute and Separator Conventions

## Attributes

Attribute	Definition
Data Element Type	<p>Nn – Numeric      Numeric type data element is symbolized by the two-position representation (Nn). N indicates a numeric, and n indicates the decimal places to the right of a fixed, implied decimal point. N0 (N Zero) is a numeric with no decimal places.</p> <p>R – Decimal (Real)      The decimal point is optional for integer values, but is required for fractional values. For negative values, the leading minus (-) sign is used. Absence of this sign indicates a positive value. The plus (+) sign should not be transmitted.</p> <p>ID – Identifier      An identifier data element must always contain a value from a predefined list of values that is maintained by ASC X12 or by other bodies that are recognized by ASC X12.</p> <p>AN – String      A string (Alphanumeric) is a sequence of any characters from the basic or extended character sets. It must contain at least one non-space character. The significant characters must be left justified. Leading spaces, if any, are assumed to be significant. Trailing spaces should be suppressed.</p> <p>DT – Date      Format for the date type is CCYYMMDD. CC is the century digits of the year (ex. 19, 20). YY is the last two digits of the year (00-99), MM is the numeric value of the month (01-12), and DD for the day (01-31).</p> <p>TM – Time      Format for the time type is HHMMSS, expressed in 24-hour clock format. HH is the numeric value for hour (00-23), MM for minute (00-59), and SS for second (00-59).</p>
Requirement Designator	<p>Defines how the data element is used in a segment.</p> <p>M      Mandatory data element - This element is required to appear in the segment.</p> <p>O      Optional data element - The appearance of this data element is at the option of the sending party or is based on a mutual agreement of the interchange parties.</p> <p>X      Relational data element - Relational conditions may exist between two or more data elements. If one is present the other/s is required. The relational condition is displayed under the Syntax Noted of the X12 Standards.</p>
Data Element Length	The number of character positions assigned to a data element. Example: Data element length of 2/10. You must have at least 2 characters but no more than 10 characters for this element (minimum of 2/ maximum of 10).
Semantic Note Designator	<p>Z – Designator      A data element within a segment may have a designator (Z) that indicates the existence of a semantic note. Semantic notes are considered part of the standard. If a condition designator and a semantic note both affect a single data element, the condition will appear first, separated from the semantic note designator by a vertical bar ( ). The number 00 to the left of the comment identifies semantic notes that are general in nature.</p>

## Separator Requirements

Type	ASCII Value	EBCDIC Value	Character	Character Name
Repetition Separator	7C	4F		Pipe
Segment Terminator	5C	E0	\	Back Slash
Element Separator	7E	A1	~	Tilde
Sub-element Separator	5E	5F	^	Caret
Padding Character	20	40	Space	Space

# Chapter 4 – X12 EDI Envelope

ISA	Interchange Control Header

# EDI 813 Mapping

## Electronic Signature Method:

The following example illustrates how the ISA01-ISA04 can serve as an electronic signature.

- ISA01 is 03 (zero three). ISA01 qualifies ISA02 as an authorization code.
- ISA02 is the ten-digit authorization code provided by the taxing authority. This code, in conjunction with the ten-digit password in ISA04, will represent your signature that is affixed to a trading partner agreement
- ISA03 is 01 (zero one). ISA03 qualifies ISA04 as a security password
- ISA04 is the ten-digit password that is created by the trading partner and entered on the trading partner agreement. This password, in conjunction with the ISA02 authorization code, will represent your signature that is established on the trading partner agreement

## Chapter 5 – 813 EDI Combined Reporting

### ANSI ASC X12 – 813 EDI Standard

RELEASE • 004030

TRANSACTION SET TABLES • 813

#### 813 Electronic Filing of Tax Return Data

FUNCTIONAL GROUP: **TF**

This Draft Standard for Trial Use contains the format and establishes the data contents of the Electronic Filing of Tax Return Data Transaction Set (813) for use within the context of an Electronic Data Interchange (EDI) environment. This transaction set can be used by tax filers to electronically file tax returns with a federal, state, or local taxing authority and which may initiate payments related to the tax return.

NOTES

- 1/0400 The TIA segment allows for tax information and amounts associated with the entire filing. At least one occurrence of the TIA segment must be present in the transaction set, either in Table 1 or Table 2.
- 1/0500 This N1 loop reflects names and addresses associated with the entire filing.
- 2/0500 This N1 loop reflects names and addresses associated with a particular tax form (TFS).
- 2/0920 At least one occurrence of the TIA segment must be present in the transaction set, either in Table 1 or Table 2.
- 2/1300 This N1 loop reflects names and addresses associated with a particular subset of a tax form.
- 2/1800 At least one occurrence of the TIA segment must be present in the transaction set, either in Table 1 or Table 2.

## *813 EDI Map*

### **FTA Motor Fuel Tax Section Uniformity Committee**

The Combined Reporting map is based on Uniform Forms adopted by the Uniformity Committee of the Motor Fuel Tax Section of the Federation of Tax Administrators. This Map is consistent with ANSI ASC X12 version 4030 standards. Any taxing authority implementing EC programs is asked to utilize this document when mapping their motor fuel tax returns/reports.

**Key:**

Not Used	<b>Not used: no data to transmit</b>
Syntax Notes	<b>Note: Notes defined by X12 Standards</b>
FTA Notes	<b>Note: Notes defined by FTA Uniformity</b>
SC Notes	<b>Note: Notes defined by the South Carolina Department of Revenue to further clarify the Department's requirements</b>
Struck-out Text	<b>Text, elements or entire segments that are struck out (example), are part of the Uniform map, but are not used by South Carolina</b>

**Transaction Set Header Description**

<b>Beginning of Transaction Set Header Segment</b>								<b>(Required) Pos. No. 0100</b>
<b>Element ID</b>	<b>Elem Ref #</b>	<b>Sub-Ele Ref #</b>	<b>Field Status</b>	<b>Field Name</b>	<b>Field Type</b>	<b>Length</b>		<b>Field Description</b>
						<b>Min</b>	<b>Max</b>	
ST01	143		M	Transaction Set Code	ID	3	3	Transaction Set Type "813"
ST02	329		M	Transaction Set Control Number	AN	4	9	Filer defined unique control number (same value as SE02)
ST03	1705		O/Z	Implementation Convention Reference	AN	1	5	Version of Taxing Authority's implementation Guide '2' = SC Version 2
<b>ST~813~1001~2\</b>								
<b>Syntax Notes: None</b>								
<b>FTA Note: It is recommended that the ST03 be used to help identify which implementation guide the trading partner is using. This element will help the receiver of the data determine if the sender is using an old guide or the most current guide for the data transmission.</b>								

<b>Identify Tax Agency Information Begin Tax Information Segment</b>								<b>(Required) Pos. No. 0200</b>

<b>BTI~T6~050~47~SCDOR~20010523~ABCD~24~516999988~49~371111118~SV~SCMFUEL0301~00\</b>								
<b>Syntax Notes: If either BTI07 or BTI08 is present, then the other is required.</b>								

# EDI 813 Mapping

<p>If either BTI09 or BTI10 is present, then the other is required. If either BTI11 or BTI12 is present, then the other is required.</p>	
<p><b>FTA Notes:</b></p> <p>BTI07 must be the FEIN if the taxpayer has one. Submit a SSN only for sole proprietorships that have not been issued a FEIN.</p> <p>The application of BTI13 and BTI14 are as follows: BTI13 should be used when the taxpayer transmits their initial return (BTI13 should be used without BTI14); BTI14 should be used when the taxpayer transmits modifications (BTI14 should be used without BTI13). This is a recommendation of the Motor Fuel Uniformity Committee, not a requirement of X12. Further clarification of these elements is located below.</p>	
Element	Application
BTI13 [Initial Return]	
"00" = Original	Use "Original" when first attempting to transmit your return to the department whether the return is received or not. Always use "00" until the original return is received.
"05" = Replace	<del>Use "Replace" when first attempt of transmitted return had corrupted data.</del>
"15" = Resubmission	<del>Use "Resubmission" when the Department did not receive first attempt of your transmitted return.</del>
BTI14 [Amended Return]	
"CO" = Corrected	Use "Corrected" when adjusting or correcting original or amended return.
"6R" = Resubmission	<del>Use "Resubmission" when first attempt to transmit amended return was not received by the Department.</del>
"6S" = Supplemental	Use "Supplemental" when transmitting new or additional data not included in original or amended return.

Tax Filing Period							(Required)
Date/Time Reference Segment							Pos. No. 0300
Element ID	Elem Ref #	Sub-Ele Ref #	Field Status	Field Name	Field Type	Length Min Max	Field Description

Syntax Notes: REF02 is required.								
FTA Note: REF02, REF05 and REF07 represent the taxing authorities and their relationship to the information in this TFS loop. REF05 - REF07 use the sub-element separator.								

### Sequence ID Number Usage

Sequence ID number is a counter used as a reference point when the South Carolina Department of Revenue contacts a filer with a question about the filer EDI file. The first Sequence ID Number within an envelope (ISA/IEA loop) will start at 1. Every subsequent REF within the ISA/IEA loop will be incremented by 1.

Sequence ID Number								
Reference Number Segment							Pos. No. 0200	
Element ID	Elem Ref #	Sub-Ele Ref #	Field Status	Field Name	Field Type	Length		Field Description
						Min	Max

## Summary Information

This TFS loop reports summary information. This TFS loop is used in combination with the SDR report.

Summary information is used when the information cannot be derived from the schedule details. This TFS loop repeats when one of the following values changes: TFS02 Summary Code, TFS04 Product Code.

If there are no transactions to report in this filing, it is not necessary to transmit a Summary Information TFS loop.

Beginning of Summary Information								Pos. No. 0100
Tax Form Segment								
Element ID	Elem Ref. #	Sub-Ele Ref. #	Field Status	Field Name	Field Type	Length		Field Description
						Min	Max	
TFS01	128		M	Reference Identification Qualifier	ID	2	2	"T3" = Tax Schedule Code
TFS02	127		M	Reference Identification	AN	1	6	TFS02 Summary Code "S02A" Tax "S03A" Tax Credit "S03A01" Collection (Administration) Allowance "S03C" Allowance (Tare) "S02C" Inspection Fee "S03B02" Inspection Fee Credit "S02D" Other Environmental Fees "S03B" Fee Credit
TFS03	128		X	Reference Identification Qualifier	ID	2	2	"PG" = Product Group
TFS04	127		X	Reference Identification	AN	3	3	Product Code "065" for reporting Gasoline products "167" for reporting Special Fuel products
TFS05	66		X	Identification Code Qualifier	ID	2	2	"94" = Mode
TFS06	67		X	Identification Code	AN	2	2	"CE" = Transaction Type Mode Code
TFS~T3~S02C~PG~065~94~CE\								
Syntax Notes: If either TFS03 or TFS04 is present, then the other is required. If either TFS05 or TFS06 is present, then the other is required.								
FTA Notes: None								
SC Notes:								

Relationship to the Transaction Information								Pos. No. 0200

## **South Carolina Required Summary**

### **Supplier Return Summary Codes to be included:**

S02A Tax  
 S03A Tax Credit  
 S03A01 Collection Allowance (Administration allowance)  
 S03C Allowance (Tare allowance)  
 S02C Inspection Fee  
 S03B02 Inspection Fee Credit  
 S02D Other Environmental Fees  
 S03B Fee Credit

All fields listed are from page 1 of the Supplier Return.

### **Gasoline**

TFS02 Summary Code: S02A		
Gasoline Tax	(Line 1 of Supplier return)	TIA Code: 5005
Gasoline Tax Interest	(Line 7 of Supplier return)	TIA Code: 5008
Gasoline Tax Penalty	(Line 6 of Supplier return)	TIA Code: 5009
 TFS02 Summary Code: S03A		
Gasoline Tax Credit	(Line 4 of Supplier return)	TIA Code: 5005
 TFS02 Summary Code: S03A01		
Gasoline Administrative Allowance	(Line 3 of Supplier return)	TIA Code: 5005
 TFS02 Summary Code: S03C		
Gasoline Tare Allowance	(Line 2 of Supplier return)	TIA Code: 5005

### **Special Fuel**

TFS02 Summary Code: S02A		
Special Fuel Tax	(Line 9 of Supplier return)	TIA Code: 5005
Special Fuel Tax Interest	(Line 15 of Supplier return)	TIA Code: 5008
Special Fuel Tax Penalty	(Line 14 of Supplier return)	TIA Code: 5009
 TFS02 Summary Code: S03A		
Special Fuel Tax Credit	(Line 12 of Supplier return)	TIA Code: 5005
 TFS02 Summary Code: S03A01		
Special Fuel Administrative Allowance	(Line 11 of Supplier return)	TIA Code: 5005
 TFS02 Summary Code: S03C		
Special Fuel Tare Allowance	(Line 10 of Supplier return)	TIA Code: 5005

# EDI 813 Mapping

---

## Inspection Fees

TFS02 Summary Code: S02C		
Inspection Fee	(Line 17 of Supplier return)	TIA Code: 5005
Inspection Fee Interest	(Line 20 of Supplier return)	TIA Code: 5008
Inspection Fee Penalty	(Line 19 of Supplier return)	TIA Code: 5009
 TFS02 Summary Code: S03B02		
Inspection Fee Credit	(Line 18 of Supplier return)	TIA Code: 5005

## Environmental Impact Fees

TFS02 Summary Code: S02D		
Environmental Fee	(Line 22 of Supplier return)	TIA Code: 5005
Environmental Fee Interest	(Line 25 of Supplier return)	TIA Code: 5008
Environmental Fee Penalty	(Line 24 of Supplier return)	TIA Code: 5009
 TFS02 Summary Code: S03B		
Environmental Fee Credit	(Line 23 of Supplier return)	TIA Code: 5005

See sample mapping of Supplier return on page L-73

## Schedules

This TFS loop begins the schedule detail. It repeats when one of the following values change:

Tax Form Code, Schedule Code, Mode Code, Product Code, Origin, Position Holder, Seller, Consignor, Carrier, Buyer, Consignee or Destination.

If there are no transactions to report in this filing, it is not necessary to transmit a Schedules TFS loop. You must indicate no activity in the TOR, SDR and/or CCR sections of this map.

Note: Terminal Operators for out-of-state terminals that disburse product into South Carolina are required to report terminal disbursements; they are not required to report terminal receipts.

Beginning of Schedules								
Tax Form Segment								Pos. No. 0100
Element ID	Elem Ref. #	Sub-Ele Ref. #	Field Status	Field Name	Field Type	Length		Field Description
						Min	Max	
TFS01	128		M	Reference Identification Qualifier	ID	2	2	"T3" = Tax Schedule Code
TFS02	127		M	Reference Identification	AN	1	6	Schedule Type Code See schedule code list in Appendix on page C-59
TFS03	128		X	Reference Identification Qualifier	ID	2	2	"PG" = Product Group
TFS04	127		X	Reference Identification	AN	3	3	Product Code See Product Codes in Appendix on page D-60
TFS05	66		X	Identification Code Qualifier	ID	2	2	"94" = Mode
TFS06	67		X	Identification Code	AN	2	2	Transaction Type Mode Code See Code List in Appendix on page F-63
TFS~T3~2~PG~065~94~J \								
Syntax Notes: If either TFS03 or TFS04 is present, then the other is required. If either TFS05 or TFS06 is present, then the other is required.								
FTA Notes: TFS02 - Terminal schedule of receipts do not have schedule type codes. It is recommended you use "TR" for receipts.								

Relationship to the Transaction Information

# EDI 813 Mapping

For Point of Origin/Terminal: (One of the following Options is Required)

Use Option 1 when the origin has an IRS TCN.

Use Option 2 when the origin does not have an IRS TCN.

~~Use Option 3 when the state requires an origin facility ID (currently used by the state of Florida).~~

## Option 1

Point of Origin Name Segment 1								(One of the two options is used) Pos. No. 0500
Element ID	Elem Ref. #	Sub-Ele Ref. #	Field Status	Field Name	Field Type	Length		Field Description
						Min	Max	
N101	98		M	Entity Identification Code	ID	2	2	"OT" = Origin Terminal
N102 is not used.								
N103	66		X	Identification Code Qualifier	ID	2	2	"TC" = IRS Terminal Code
N104	67		X	Identification Code	AN	9	9	IRS Terminal Code (Code list is located at <a href="http://www.irs.gov/bus_info/excise/index.html">www.irs.gov/bus_info/excise/index.html</a> )
N1~OT~~TC~T99SC0000\								
Syntax Notes: N103 is required. If either N103 or N104 is present, then the other is required.								
FTA Notes: None								
SC Notes: Origin Terminal (Option 1) is required for all Terminal Operator Disbursements, Supplier Terminal Rack Removals, Supplier Receipts and Diversion Corrections. Either origin option 1 or origin option 2 is required for Transporter Deliveries. For all Terminal Operator Disbursements, when TFS006 (mode code) = BA, OT is required.								

## Option 2

Point of Origin Name Segment 1								(One of the two options is used) Pos. No. 0500
Element ID	Elem Ref. #	Sub-Ele Ref. #	Field Status	Field Name	Field Type	Length		Field Description
						Min	Max

## Chapter 6 – Acknowledgments

In the past, normally users would be able to retrieve an EDI 997 (Functional Acknowledgment) within two business days of transmission of the EDI user filing. **Effective July, 2012**, the upgrade to the SC Motor Fuel eFiling System will automatically notify the filer via email once the file processes and/or if errors occur. If the return is filed successfully, a Tracking Number will be assigned to the return for confirmation. **The user needs to make sure that all contact information is up to date so the notification will be received.**

## Appendix A – EDI Upload Procedures

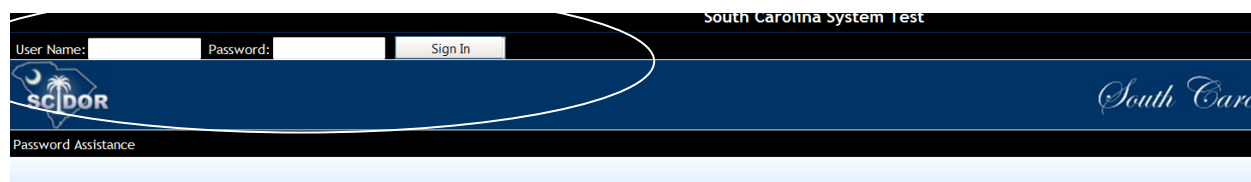

To upload a production file to the eFile system, go to [www.sctax.org](http://www.sctax.org) and click on the

eFiling for Motor Fuel icon,

Motor Fuel on-line Filing System

At this time, you will be able to sign in to the Motor Fuel System with your userid and password to upload your EDI file.

Welcome to the South Carolina Department of Revenue  
Motor Fuel Online Reporting System

There are two sources of getting help for usage of the South Carolina Motor Fuel eFiling system. They are as follows:

The South Carolina User Program Guide available online at [www.sctax.org](http://www.sctax.org);

The ZyTax Government 5 User Guide. Once signed in, click “Help” and open the Guide.

**If there are any questions that the guides cannot answer, please contact the South Carolina Department of Revenue.**

**South Carolina Department of Revenue

# Appendix C - Schedules and Sub-Schedules

## South Carolina Schedules

User Fee Type	Schedule Code	Description
Supplier	1	Gallons Received User Fee Paid
Supplier	5A	Gallons Removed Subjected to User Fee (Non-eligible Purchaser)
Supplier	5C	Gallons Removed Subjected to User Fee (Eligible Purchaser)
Supplier	5E	Gallons Removed User Fee Paid for Import by Importer
Supplier	5H	Gallons Removed User Fee Paid - For Export by Exporter
Supplier	6F	Gallons Removed - Dyed Diesel and Heating Oil
Supplier	6H	Gallons Removed User Fee Free Import by Licensed Importer
Supplier	7A	Gallons Removed for Export to _____ by Supplier (Dest State Tax Collected)
Supplier	7B	Gallons Removed for Export to _____ by Supplier (Dest State Tax Exempt)
Supplier	8	Gallons Removed for US Government Sales
Supplier	9C	Gallons Removed for SC Department of Education School Busses
Supplier	10B	Gallons Removed for Aviation Use
Supplier	10G	Gallons Removed for Exempt Sales
Supplier	11	State Diversion Corrections
Terminal Operator	15A	Terminal Operator Schedule of Receipts
Terminal Operator	15B	Terminal Operator Schedule of Disbursements
Transporter	14A	Total of all deliveries of fuels from a point inside South Carolina to a point outside South Carolina
Transporter	14B	Total of all deliveries of fuels from a point outside South Carolina to a point inside South Carolina
Transporter	14C	Total of all deliveries of fuels between two points in South Carolina

---

# Appendix D – Product Codes

## South Carolina Product Codes

Product Code	Description
065	Gasoline
072	Kerosene - dye added
122	Blending Components
E00	Ethanol
E01 – E99	Gasohol
125	Aviation Gasoline
130	Jet Fuel
142	Kerosene - undyed
167	Low Sulfur Diesel Fuel - undyed
226	High Sulfur Diesel Fuel - dye added
227	Low Sulfur Diesel Fuel - dye added
B00	Biodiesel – undyed
B01 – B99	Biodiesel blended with undyed diesel
D00	Biodiesel - dyed
D01 – D99	Biodiesel blended with dyed diesel

# Appendix E – Summary Codes / TIA Codes

## Summary Code and TIA Code Usage

Summary and TIA codes are used for the following purposes (See complete list of codes below.):

### 813 Map

1. Header – TIA code 5000 defines the version/publication number of the taxing authority's EC Implementation Guide. TIA code 5001 (Total Net Reported) is a check value for determining if all information is included in the EDI file.
2. TOR – Terminal Operator Report or SDR - Supplier/Distributor Report - TIA code 5002 (Physical Inventory) is used to report Ending and/or Beginning Inventory.
3. SDR – Supplier/Distributor Report – TIA code 5003 (Total Due) is a check value used to acknowledge and validate user fee ability or gallons subject to user fees.
4. CCR – Common Carrier Report – TIA code 5004 (Total Net Transported) is a check value used to acknowledge and validate the report.
5. SUM - Summary Code and TIA codes are used for identifying information not found in schedules or able to be derived from the schedules. The SUM loop provides a looping structure allowing multiple TIAs in a uniform format
6. Schedules – TIA 5005 (Net), 5006 (Gross) and 5007 (Billed) are used to report bill of lading volume details or further define summary detail.
7. Summary codes are defined and utilized for both quantity and money. The TIA segment of the summary has elements for both quantity and monetary values.

## Summary Codes

<b>S01</b>	<b>Inventory</b>
S01A	Net Gains / Losses
S01B	Casualty Loss
S01C	Product Transfer – Disbursement
S01D	Product Transfer – Receipt
S01E	Meter Test – Disbursement
S01F	Meter Test - Receipt
<b>S02</b>	<b>Taxes / Fees</b>
S02A	Tax
S02B	Transfer / Lust Fee
S02C	Inspection Fee
S02D	Other Environmental Fee
S02E	Gaseous Permit Fee
<b>S03</b>	<b>Credit</b>
S03A	Tax Credit
	S03A01 Collection Allowance (IN – February 2002)
S03B	Fee Credit
	S03B01 Transfer Fee Credit (MO – September 2001)
	S03B02 Inspection Fee Credit (MO – September 2001)
S03C	Allowance
<b>S04</b>	<b>Bad Debt Write-off</b>
S04A	Tax Bad Debt Write-off
S04B	Fee Bad Debt Write-off

**S05 General Return**

- S05A Gallons/Liters Refined, Distilled or produced  
 S05B Petroleum product repackaged into containers of 55 gallons or less  
 S05C Ethanol Blended with Gasoline  
 S05D Product Delivered  
 S05E Other petroleum products first sold, offered for sale, or used in Nebraska  
 S05F Total gallons of Motor Vehicle fuel first sold, offered for sale or used in Nebraska.  
 S05G Untaxed diesel used in a licensed vehicle  
 S05H Kerosene blended with diesel and used in a licensed vehicle  
 S05I Other exempt removals (CA – May 2001)

**FTA Uniformity TIA Codes**

The data represented by these TIA codes is not derivable from schedules or represents a check value.		
5000	Version of taxing authority's implementation guide	Header
5001	Total Net Reported	Header
5002	Net Physical Inventory	TOR, SDR
5003	Total Due	SDR
5004	Total Net Transported	CCR
5005	Net	SCH, SUM
5006	Gross	SCH, SUM
5007	Billed	SCH, SUM
5008	Interest	SUM
5009	Penalty	SUM
5010	Confidential Information	Header
5011-5199	<b>Not used</b>	

# Appendix F - Transaction Type Mode Codes

Transaction Type Mode Codes	
Code	Description
J_	Truck
R_	Rail
B_	Barge
S_	Ship
PL	Pipeline
GS	Gas Station
BA	Book Adjustment

# Appendix H – Software Edits

The tables on the preceding pages show most of the edits that will be performed on your 813. However, listed below are additional edits that should be performed. We strongly recommend you incorporate these edits into your software to further ensure the accuracy of the user fee reporting and to minimize the possibility of the 813 being rejected.

## User Fee Edits

1. **Prior period adjustments and late loads that originated at any time other than the month immediately prior to the current filing period should not be reported on a current monthly return.** Amendments must be filed reflecting only these adjustments or additions for each filing period. Any supplier that includes these adjustments or additions on a current return will be issued an assessment that will include applicable interest and may include a penalty in the amount of 5% per month (not to exceed 25%) of the user fee due per SC Code Section 12-28-1730 (H). Refusal to comply with this requirement could result in license revocation per SC Code Section 12-54-90. See Amended Return Section.

2. The maximum amount of Tare Allowance for gasoline and special fuel combined cannot exceed \$2,000 per month.

Note: Suppliers are not entitled to a tare allowance deduction for gallons subject to user fee sold to a fuel vendor with eligible purchaser status.

## EDI Edits

3. It is critical that software programs be capable of translating 997 codes into user-friendly language for correction purposes. If the codes are not translated within the software, users will be referred to software developers for translation of any 997 error code.

4. Freeze all data after each transmission to ensure a proper audit trail. Do not allow transmitted data to be altered.

5. ISA15 data element field in the interchange control header segment determines the test/production status of the transmission. If the ISA15 is set to a “T”, then the 813 will be considered test data and if it is set to “P” then it will be considered production.

6. BTI10 must be populated with the user’s Supplier/Terminal Operators license number. The license number is a nine-digit number. The first three digits will always be 371, and the ninth digit is the check digit. It is calculated as follows:

Multiply each digit in the RLN number separately by its weighing factor. The weighing factors for each digit are:

Position: 1 2 3 4 5 6 7 8  
Weights: 2 1 2 1 2 1 2 1.

Add all of the digits from the results of the eight separate multiplications.

Subtract the sum of the addition from the next higher multiple of ten. If the calculation totals a multiple of ten, the check digit is zero. The result of the subtraction is the check digit.

Example:           RLN Number: 0 4 0 3 8 4 8 3  
                      Weights:     2 1 2 1 2 1 2 1  
                      Results:     0 4 0 3 16 4 16 3

Sum = 0 + 4 + 0 + 3 + 1 + 6 + 4 + 1 + 6 + 3 = 28

Check digit = 30 - 28 = 2

NOTE: Please ensure that your software uses the above calculation to verify the license number is correct before sending an 813 transaction. This number will be checked for accuracy once your 813 transaction set is received at the South Carolina Department of Revenue. If it is found to be invalid, your 813 will be rejected.

7. The value used in BTI12 will be a software provider code issued by the SCDOR. It will be issued to each software provider as they register with the SCDOR.

Note: For users who are developing their own EDI, please use "X12" in the BTI12 field.

**Amended Returns**

You must refer to Appendix J for the complete listing on Amended returns.

**Special Notes:**

8. If Schedule 5A is affected by the amendment, the TARE must be recalculated based on the original and all amendments, not to exceed \$2000.00 per month for gasoline and diesel combined.
9. If schedule 5A and / or schedule 5C are affected by the amendment, the Administrative Allowance needs to be recalculated prior to submitting the amendment.
10. If the calculation total in TIA 5003 includes Penalty and Interest, then your TIA 5003 must include the sum of TIA 5005, 5008 and 5009.

# Appendix I – Return and Schedule Formatting Requirements

The South Carolina Department of Revenue has previously published instructions for completing the following forms and supporting schedules:

Form L-2098 – Motor Fuel Terminal Operator Monthly Report

- L-2099 – Terminal Operator Schedule of Receipts
- L-2100 – Terminal Operator Schedule of Disbursements

Form L-2119 – Motor Fuel Suppliers Monthly User Fee and Calculation

- L-2102 – Supplier Schedule of State Diversion Corrections
- L-2103 – Supplier Schedule of Terminal Rack Removals
- L-2122 – Supplier Schedule of User-Paid Receipts

Form L-2176 – Motor Fuel Transporter Monthly Report

- L-2185 – Motor Fuel Transporter Schedule

Form L-2098 “Motor Fuel Terminal Operator Monthly Report” and Form L-2119 “Motor Fuel Suppliers Monthly User Fee and Calculation” and Form L-2176 – Motor Fuel Transporter Monthly Report will be created on the actual South Carolina form or on a replica which matches the State format.

Following is a recap of the required schedule format anytime a supporting schedule is submitted in paper; whether actually filing on paper, during the EDI certification process, or as backup documentation should the Department contact you.

L-2099 – Terminal Operator Schedule of Receipts

- List each product in ascending order and report on a separate page.
- List receipts by product code in ascending order.
- Within each product, list receipts by carrier/transporter name (pipeline) in ascending order.
- Within each carrier/transporter, list transactions by position holder name (supplier) in ascending order.
- Then within each position holder, list transactions by document number (pipeline reference number) in ascending order.
- Print subtotals by position holder and by carrier.
- Print totals by product.

L-2100 – Terminal Operator Schedule of Disbursements

- List each product in ascending order and report on a separate page.
- Within each product, list disbursements by destination state in ascending order.
- Within each state, list transactions by supplier name in ascending order.
- Then within each supplier, list transactions by document number (bill of lading) in ascending order. Print subtotals by supplier and state.
- Print totals by product.

L-2102 – Supplier Schedule of State Diversion Corrections

- List each product in ascending order and report on a separate page.
- Within each product, list diversion corrections by diversion number in ascending order.

L-2103 – Supplier Schedule of Terminal Rack Removals

- Each schedule code should be reported on a separate page
- Within each schedule, list each product in ascending order and report on a separate page.
- Within each product, list transactions by origin terminal code
- Within each terminal, list the transactions in ascending order by purchaser name.
- Within each purchaser, list the transactions in ascending order by document number (bill of lading).

- Print a total for each terminal.

#### L-2122 – Supplier Schedule of User-Paid Receipts

- List each product in ascending order and report on a separate page.
- Within each product, list transactions by supplier name in ascending order
- Within each supplier, list receipts by origin terminal code with a total for each terminal.
- Within each terminal, list the transactions in ascending order by document number (bill of lading).
- Print a total for each Supplier

#### L-2185 – Motor Fuel Transporter Schedule

- Each schedule code should be reported on a separate page
- Within each schedule, list each product in ascending order and report on a separate page.
- Within each product schedule categorize deliveries by destination state with a total for each state. (Destination state will be South Carolina for Schedules 14B and 14C).
- Within each product and schedule, categorize deliveries first by origin terminal code with a total for each terminal.
- Within each origin terminal listing, sort deliveries by seller name and include a subtotal for each seller.
- Arrange deliveries in ascending order by document number (bill of lading).
- Print totals by product.

# Appendix J – Book Adjustments

## **Book Adjustments Requiring Corresponding Entries**

In the State of South Carolina, rebranding of products is to be reported by a book adjustment (BA). Rebranding, the above the rack transfer of one product into storage of another product, must be reported by a book adjustment reflecting a disbursement terminal (15B) of one product and a corresponding terminal receipt (15A) of the second product. The product codes for the disbursements and receipts should be different, but the total gallons for the receipts and disbursements must be the same.

### **Example 1**

You have a customer who needs 10,000 gallons of high-sulfur diesel. Your terminal is low on high sulfur diesel (226) but has an abundance of kerosene (072). You decide to move the kerosene into the high sulfur diesel fuel storage to accommodate your customer's needs. You would need to create an entry that would decrease your terminal's kerosene inventory and increase your terminal's high sulfur diesel inventory. You would need two book adjustment entries, the first being a 10,000 gallon entry to your terminal disbursements (15B) for kerosene (072) and second entry to record the receipt (15A) of the high sulfur diesel (226). The mapping would read as follows:

#### **Disbursement**

TFS~T3~15B~PG~072~94~BA\ REF~55~325\ N1~OT~~TC~T57SC0000\ N1~ON~Tiger Terminal~24~571234567\ FGS~D~BM~REBRAND\ REF~55~326\ DTM~095~20041020\ TIA~5005~~~10000~GA\ TIA~5006~~~10000~GA\ 	Book Adjustment for product code 072  Terminal where rebrand happened Owner of product in terminal   Date the rebrand took place Gross amount of gallons in rebrand
--	--

#### **Receipt**

TFS~T3~15A~PG~226~94~BA\ REF~55~327\ N1~DT~~TC~T57SC0000\ N1~ON~Tiger Terminal~24~571234567\ FGS~D~BM~REBRAND\ REF~55~328\ DTM~095~20041020\ TIA~5005~~~10000~GA\ TIA~5006~~~10000~GA\ 	Book Adjustment for product code 226  Terminal where rebrand happened Owner of product in terminal   Date the rebrand took place Gross amount of gallons in rebrand
--	--

**SCDOR request that all adjustments of this type be filed with the bill of lading number reading 'REBRAND.'**

## **Book Adjustments Requiring Only 1 Entry**

If there is a transfer that involves a non-reporting product, there would only be an entry showing the disbursement of the non-reporting product. There would be no corresponding entry.

Please see the above Disbursement mapping for an example.

# Appendix K – Amended Returns

## What is an amended return?

An amended return is any data reported to the South Carolina Department of Revenue that adjusts or corrects an original user filing.

## How should I file an amended return?

The amended should be filed by the same method the original was submitted. For example, if the original was filed by paper, then the amended must be filed by paper. Like wise, if the original was submitted by EDI, then the amended must be submitted by EDI. Do NOT mix the two. If an original is submitted by paper and the amendment is submitted by EDI, it will not be processed.

## What file name should an amended return carry?

It will follow the normal naming conventions, noting that the reporting year and month corresponds to the year and month being amended. See File Naming Conventions Section.

**\*\* Original returns rejected for EDI syntax errors are NOT to be resubmitted as Amended returns. See File Naming Conventions Section.**

## Can I put amendments for different periods in one envelope?

No, amendments for different periods should not be submitted in one envelope. Each file name carries the period covered of the file. If multiple periods are included in one file, then your filing can not be uniquely identified.

## What information is needed when filing an Amended return?

South Carolina Department of Revenue requires only the amended transaction(s) be filed along with ALL the summary (TIA) segments reflecting only the total of the amendment(s), even if the segment results in a 0 value. All summary segments are required regardless of whether or not there has been a change. If all segments are not present, the return will be rejected.

## When must I recalculate the TARE allowance?

If the total for Schedule 5A, Gallons Removed Subject to User Fee (Non-eligible Purchasers), is increased or decreased by the amendment, the TARE must be recalculated in order to arrive at the corrected user fee amount due or amount to be refunded.

## How do I recalculate the TARE allowance for an amendment?

The TARE is recalculated based on the revised total for Schedule 5A, Gallons Removed Subject to User Fee (Non-eligible Purchasers), and must be adjusted by the TARE allowance that was claimed on the original return and on any previous amendments, if applicable, not to exceed \$2000.00 per month for gasoline and diesel combined.

## When do I recalculate the Administrative Allowance?

If totals from Schedule 5A, Gallons Removed Subject to User Fee (Non-eligible Purchasers), and/ or Schedule 5C, Gallons Removed Subject to User Fee (Eligible Purchasers), are increased or decreased by the amendment, the Administrative Allowance must be recalculated in order to arrive at the corrected user fee amount due or amount to be refunded.

## What if the transaction needs to be reported on a prior period but has already been filed on an original return with an incorrect period?

If the transaction has been filed on an original return with an incorrect period, you will need to file an amended return with a negative entry for that period to back out the original transaction. Then file the transaction as an amended reporting the correct period.

For example: A March transaction reported as an April transaction on an April original return should be reversed by sending a negative entry on an April amended return and then filing a positive entry on a March amended return.

## How do I correct a return that was originally filed with an out of period transaction that has been rejected?

The software package should create two separate filings.

- 1) Original return without the late loads (Any transactions other than the month immediately prior to the current filing).
- 2) An amended return properly reporting out of period transactions.

Example: April 2004 original return contained a late load that should have been reported on the February 2004 return.

The following is needed to correctly adjust the late load:

- 1) Resubmit the April 2004 return, without the late load.
- 2) File an amendment for February 2004 return to reflect the adjustment.

Special Note:

**Prior period adjustments and late loads that originated at any time other than the month immediately prior to the current filing period should not be reported on a current monthly return.** Amendments must be filed reflecting only these adjustments or additions for each filing period. Any supplier that includes these adjustments or additions on a current return will be issued an assessment that will include applicable interest and may include a penalty in the amount of 5% per month (not to exceed 25%) of the user fee due per SC Code Section 12-28-1730 (H). Refusal to comply with this requirement could result in license revocation per SC Code Section 12-54-90. See Amended Return Section.

# Appendix L - Sample EDI Files

## Supplier (SDR)

(Formatted with carriage returns for viewing – in an actual filing, carriage returns would be omitted.)  
The Supplier Return should be within its own ST/SE loop.

**Note: Matching Sample Return and Schedules follow.**

**Penalties** - Failure to file a return will result in a penalty of five percent (5%) for the first month plus five percent (5%) for each additional month not to exceed a total of twenty-five percent (25%). Failure to pay will result in penalties of one half of one percent (.5%) per month not to exceed twenty-five percent (25%). Other penalties may apply.

**Interest** - Interest on all overdue accounts will be assessed at the rate provided under Section 6621 and 6622 of the Internal Revenue Code. Rates will change quarterly depending on the prime rate. In addition, interest will be compounded daily.

I hereby certify that the information contained in this report (including all attachments) has been examined by me and to the best of my knowledge, is true, correct and a complete return.

**Penalties** - Failure to file a return will result in a penalty of five percent (5%) for the first month plus five percent (5%) for each additional month not to exceed a total of twenty-five percent (25%). Failure to pay will result in penalties of one half of one percent (.5%) per month not to exceed twenty-five percent (25%). Other penalties may apply.

**Interest** - Interest on all overdue accounts will be assessed at the rate provided under Section 6621 and 6622 of the Internal Revenue Code. Rates will change quarterly depending on the prime rate. In addition, interest will be compounded daily.

I hereby certify that the information contained in this report (including all attachments) has been examined by me and to the best of my knowledge, is true, correct and a complete return.
